2024 SUSTAINABILITY REPORT

We are aware of our responsibilities regarding sustainable tourism. Therefore, we attach equal importance to raising awareness not only among our guests but also among our employees. We continually raise awareness of social responsibility and consistently implement environmentally friendly management practices.

Our management style is founded on "sustainable tourism." We use our natural resources sustainably, while maintaining the highest quality of our products and services, to leave a more livable environment for future generations.

ABOUT THE REPORT

As a business, informing our stakeholders transparently and effectively about our activities and their impacts is a priority for us. In this regard, we aim to publish annual sustainability reports, which will be an important tool in ensuring we are a transparent and accountable organization.

Since our inception, we have made and continue to make numerous social and environmental investments to ensure the sustainability of our business. With this sustainability report, we aim to convey our economic, environmental, and social performance to our employees, customers, and other stakeholders. The information contained in this report is for the period **January 1–December 31, 2024 , unless otherwise stated. It includes our performance between the dates.**

SCOPE

This document establishes the basic framework of a Sustainability Management System (SMS) that can be adapted and developed to cover all management processes of our hotel, and sets out our organization's policies and practices.

This document is intended for all hotel stakeholders, guests, and staff. Our system is constantly being developed to suit the size and scope of our hotel.

SUSTAINABLE MANAGEMENT SYSTEM

We believe that tourism and sustainable practices can coexist with luxury and guest comfort.

By embracing our sustainability philosophy, we aim to provide our guests with an unforgettable and environmentally responsible experience while actively contributing to the preservation of our planet. In line with our sustainability values, we are committed to promoting environmentally friendly practices and fostering a philosophy of environmental responsibility. We believe that sustainability is not just a trend, but a fundamental principle that guides our operations and guest experience.

We are committed to contributing to the fight against climate change by reducing emissions, increasing the use of renewable energy, and offsetting remaining emissions. Sustainability is central to our vision and values. We believe that hospitality can coexist harmoniously with the well-being of our planet and our communities. We are constantly working to improve our energy efficiency, renewable energy use, water conservation, waste minimization, and sustainable sourcing.

The foundation of our sustainable management system is based on risk analysis. Risk analyses are conducted under the following headings: environment, natural disasters, society, culture, economy, quality, human rights, health, and security. New headings can be added as needed.

We also have a crisis management plan system that identifies actions to be taken if risks occur after analyzing them. The annex to this document provides information on how to conduct risk analysis and crisis management.

SYS includes the implementation of certain policies by all employees on quality, economy, management, environment, culture, human rights, health and safety, the setting of targets and the continuous improvement of business management processes by monitoring whether the targets are achieved.

If the established goals are met, new goals are set. If they are not met, our goals, policies, and practices are reviewed. In this way, we strive to ensure continuous improvement.

The goals of our hotel's management system and the performance indicators that monitor compliance with the goals are included in the annex of this document.

Our hotel is committed to fulfilling its obligations under the Türkiye Sustainable Tourism Program regarding sustainability and to continuously improve its sustainable management system to increase its sustainability performance.

Our management system is constantly reviewed due to the status of the sector, environmental, social, technological, economic and cultural risks, and changes and updates arising from legislation, and the system and policies are updated if necessary.

The steps mentioned above can be summarized as the Plan-Do-Check-Act (PDCA) approach.

Figure 1. PDCA Cycle

Plan: Our hotel prioritizes the environment, society, culture, national economy, and management system, and sets goals. It plans the roadmap and actions to be taken to achieve these goals.

Implement: Our hotel establishes its core policies and practices related to environmental, cultural, social, human rights, health and safety. These are monitored, measured, and recorded at intervals defined by relevant persons.

Check: Feedback from both staff and customers is monitored and recorded in our hotel. If necessary, corrective measures are taken.

Take action: We take action to correct any issues identified during our hotel inspection. Corrective actions and actions are recorded and archived.

LEGAL COMPLIANCE

Our hotel undertakes to comply with applicable laws, regulations and international agreements, maintains an up-to-date list of these and regularly informs its staff about them, and provides the necessary training to the staff.

If asked or requested to be presented, our hotel will present all necessary permits, certificates and documents to the relevant persons and institutions.

These documents are the Business Opening and Operating License, the last month's personnel insurance declaration, tax certificate, emergency action plan, personnel training and certificates, the contract with the workplace doctor, the sewer connection certificate from the municipality, documents showing that pest control has been carried out and other necessary documents.

Business legal documents;

STAKEHOLDERS AND COMMUNICATION

Our hotel provides accurate information to all stakeholders in its promotional activities. We always use authentic visual materials in our promotions. Our hotel maintains a transparent and truthful structure regarding its products and services on its website, social media accounts, and other printed and written promotional channels and marketing communications. Our hotel also openly and transparently shares its policies and sustainability-related actions and processes with its employees and customers. Our hotel website is used to do this. Periodic reports on sustainability performance are published on our website. These reports are compiled at intervals appropriate to their subject matter.

Our hotel has a system in place to collect feedback on our sustainability performance, policies, and practices from our customers, public institutions, municipalities, employees, local communities, and all other relevant individuals and institutions. Through this system, we receive feedback from both our staff and our customers.

Our system is designed to enable and encourage our customers and staff to provide feedback quickly, simply and effectively.

This system includes surveys for guests, regular monitoring of social media accounts, email, messaging services and other communication channels for employees, and email communication and regular monitoring for all other stakeholders.

Guest Experience: Guest satisfaction is paramount at our hotel. Guest satisfaction includes feedback from the sustainability system described above. The results are analyzed. Negative feedback and responses are recorded, and necessary action is taken.

Employee participation: Our employees know what they need to do within our management system and sustainability-related policies and practices. Our employees' required actions are defined in writing and communicated to them, and they receive regular training and guidance. This training is recorded. Our employees play an active role in the development and continuous improvement of our management system and sustainability performance. We review and improve our system based on feedback from our employees.

In line with our sustainability policies and management system, employees receive periodic training programs related to sustainability and their work areas, including orientation training, on-the-job training, and required training and guidance support as required by legislation. We implement annual training plans on Occupational Health and Safety training, hygiene training for personnel, water and energy conservation, chemical use regulations, fire protection, first aid, and more.

Our employees have free and open access to all our training materials. Our hotel has Business Class No. 4857.

Our hotel is committed to complying with the relevant provisions of the Law and provides employees with at least the minimum wage. Furthermore, our hotel is committed to complying with Social Security and General Health Insurance Law No. 5510 and Occupational Health and Safety Law No. 6331.

Our hotel has established a "Sustainability Team" to manage its sustainability activities.

A person responsible for the sustainable management system / communication with local and regional people has been appointed in our facility.

ACCESSIBILITY PRACTICES

Our hotel is committed to providing accessible tourism services for everyone within its means and informs its customers and stakeholders clearly and accurately about the level of accessibility through its website.

Our hotel is also committed to ensuring full compliance with legal regulations regarding accessibility and to continuous improvement in this regard.

Our hotel is committed to providing accessible tourism services for everyone within its means and informs its customers and stakeholders clearly and accurately about the level of accessibility through its website.

Our hotel is committed to fully complying with accessibility regulations and continuously improving them.

We strive to make continuous improvements not only for guests with physical disabilities but also for those unable to participate in tourism activities due to disabilities such as vision or hearing impairments.

Our hotel regularly maintains and repairs its accessibility measures and infrastructure, making improvements as needed. We also regularly update our employees on accessibility issues.

Our facility has accessibility practices at the facility entrance, elevators and breakfast room.

There are no disabled rooms in our facility.

GOODS RECEIPT AND PURCHASING PRACTICES

Our purchasing policy includes policies aimed at local, environmentally friendly, fair trade and efficient purchasing.

Our hotel monitors our sources of goods and services. We meet with our suppliers regularly. We review their sustainability-related certificates, information, and documentation.

Local sourcing: Our hotel prioritizes local suppliers when purchasing goods and services, ensuring they are of high quality and reasonably priced. Therefore, we regularly audit our suppliers, update our supplier list, and keep them informed. The proportion of goods and services purchased from local communities is measured.

When purchasing goods and services, our hotel also gives priority to fair trade suppliers, provided that imported products are of good quality and reasonably priced.

Environmentally friendly purchasing: Our hotel follows an environmentally friendly purchasing policy, placing emphasis on efficient purchasing, energy saving and water saving to reduce food and solid waste.

Our hotel prioritizes environmentally friendly products (e.g., products with environmental labels) in its purchases. If the product group we're purchasing doesn't already have environmentally friendly labels, we select our products from suppliers and manufacturers whose production and other processes don't harm the environment.

In this context, our hotel prioritizes selecting suppliers with sustainability certifications when making its purchases. Examples of certifications to look for in suppliers include ISO14001, ISO50001, ISO14064, and ISO20400.

Environmentally certified (FSC, MSC, EU-EcoLabel, etc.) or traceable source for wood, fish, paper and other foods
Products that can be purchased are preferred.

Endangered species and species prohibited for sale (fish, trees, plants, game, etc.) are not purchased or used in our hotel.

The ratio of our purchases from environmentally certified, local producers and suppliers, and fair trade suppliers to total purchases is measured.

Our hotel has goals related to environmentally certified, local, and fair trade purchasing. In this context, we aim to increase the proportion and number of local and fair trade suppliers in our purchasing decisions, and we are committed to this goal.

Efficient purchasing: Our purchasing policy is to purchase reusable, returnable and recycled goods.
prefers.

Our hotel also prioritizes bulk and bulk purchasing. This means fewer shipments to our hotel and less greenhouse gas emissions.

It is our main priority and preference to avoid unnecessary and excessive plastic, nylon, paper, glass and wooden packaging in the products arriving at our hotel.

When purchasing consumables and toiletries, we avoid single-use items and unnecessary packaging (especially plastic). The purchasing and use of consumables and disposables is monitored and managed.

WATER MANAGEMENT AND WASTEWATER

Our hotel has a water conservation policy. This policy includes regularly measuring, monitoring, and reducing water consumption. The water risk situation in the area where our hotel is located has been determined. For this purpose, the World Water Risk Atlas prepared by the Resources Institute is used.

Water risk was also assessed in the risk analysis, and a water management plan was developed. This plan includes measuring and tracking water use, as well as targets and reporting for reducing water consumption.

Our hotel's water use activities do not harm any living creatures in the sea or lake. However, the potential for harm to these creatures has been assessed in a risk analysis, and necessary precautions have been taken.

Our hotel complies with all legal requirements and regulations regarding the use of water.

The water comes from a legal and sustainable source.

We measure our water consumption. Total water used per guest or per night is calculated and reported.

We have goals to reduce water consumption. Our hotel is planning and implementing corrective measures to address this. Water-saving equipment is used throughout the hotel. We also employ good practices, such as changing sheets and towels upon guest request.

Our hotel informs and guides its employees and stakeholders about water conservation. Our hotel mobilizes all its resources to prevent wastewater from harming the environment.

Regulations set by the local government for the disposal of wastewater are complied with.

Total water consumption rate for January – December 2024 : 1236 m3

FOOD WASTE AND SOLID WASTE

Our hotel has a Solid Waste Management Plan. The plan includes regular measurement and monitoring of waste production, waste reduction, reuse, recycling and waste disposal.

Solid wastes are separated according to their types such as food, recyclable, toxic/hazardous and organic, and their recycling and reuse status are taken into consideration during separation.

Our hotel regularly informs and guides its employees and stakeholders about waste management through various visual and communication materials.

In our hotel, solid waste is separated according to its type and collected by authorized and licensed companies.

Solid waste, including food waste, is measured by type. The amount of solid waste generated per guest or overnight stay at our hotel is calculated and reported.

Our hotel has also identified activities and risk areas with high solid waste generation. It is planning and implementing corrective measures to reduce food waste and waste.

The goal is to ensure that solid waste disposal has no negative impact on the local population or the environment. Compliance with the "Zero Waste Regulation" regarding solid waste management is ensured.

RULES OF CONDUCT IN CULTURAL HERITAGE SITES IN TURKEY

In order to improve your experience and preserve the cultural heritage areas in Türkiye and pass them on to future generations, please follow the rules below.

RULES OF CONDUCT IN NATURAL AREAS

Nature tours are organized activities designed to explore, see, explore, and promote all of Turkey's natural areas. All event organizers are required to obtain permission from the relevant administration to ensure the sustainability, effective management and protection of resources, ensure visitor safety, and guide visitors, as well as meet visitor needs and expectations. Permit applications are submitted in person, by mail, fax, or email to the General Directorate of Nature Conservation and National Parks or Provincial Directorates. Applications are finalized within 10 (ten) business days.

• Within protected areas, rare, endemic, endangered, or threatened natural plant species cannot be harmed in any way. These species cannot be collected, uprooted, or some parts of them cut off. Eggs of wild animals cannot be collected or their nests destroyed. Inviolable.

• Entering the areas where species in danger of extinction are strictly protected and for general security reasons.

Tours are not permitted in objectionable areas and places.

• During tours, no activities that may harm birds are allowed (individuals cannot be disturbed, nests and hatchlings cannot be touched, and tissue and blood samples cannot be taken for any reason). Bird observation is not allowed during the breeding season of birds. Image cannot be taken

• Professional photography and filming cannot be done without obtaining the necessary permissions from the Ministry.

Travel agencies that will organize hunting tours, photography and film shoots, and hunting and wild animal observation tours for foreign visitors in Turkey must obtain a hunting tourism certificate from the Ministry. (Article 15 of Law No. 4915)

• Fees and durations for tours, photography and filming are determined and announced by the General Directorate at the beginning of each year.

Wild animals seen or encountered during tours cannot be spooked or followed. If the tour route is in the direction of the animal seen, wait for an appropriate period of time and continue the route at a slower pace, taking care not to approach the wild animal so close as to startle or disturb it.

• For visitor safety, the Administration makes the necessary warnings and other necessary precautions are taken by the event organizers.

• In any case, visitors must take back the garbage they produce.

• Making noise and listening to loud music during tours is prohibited.

• Fires are not allowed in the areas.

• Wildlife cannot be destroyed.

• Any intervention that causes or may cause the loss or change of the characteristics of protected areas.

Work and operations that will cause soil, water and air pollution or similar environmental problems cannot be carried out.

• If a certified "Area Guide" is available in protected areas, visitors are required to visit the site with the guide. However, daily use areas and areas outside the absolute protection zone defined in the plan may be visited within the defined rules.

• Since it is envisaged that the natural resources in the absolute protection zones included in the areas and plans that require absolute protection will be left in their natural state without any human impact, the use of the areas without the knowledge of the administration and the random wandering of visitors in the area are strictly prohibited.

• In protected areas, visitors cannot go beyond the designated areas and routes (This is for the protection of both resource values (It is important for both safety and visitor safety).

• The conditions and level of use and utilization of the areas are determined by the Administration and cannot exceed the "carrying capacity".

ÿ In planned areas, visitor management, visitor usage in the area, etc. practices are implemented within the scope of the prepared plans and decisions cannot be deviated from.

ÿ The methods by which the tour route can be navigated (vehicle, pedestrian, etc.) are defined in the long-term development plans and management plans of the areas. Vehicles not specified in the plan may not be used. In areas without a management plan, vehicles approved by the administration and that will not harm the environment must be used.

ÿ Services and facilities for protection, management, research, visitor information and guidance in protected areas are envisaged to be carried out in a way that will create minimum negative impact in line with the plans made for these areas and are implemented with implementation is carried out

ÿ No activity can be carried out in wetlands that will affect the water regime.

ÿ No alien species can be introduced or released into wetlands for any purpose, and no species can be collected from wetlands.

ÿ Purchasing illegal products/souvenirs produced from threatened wildlife species should be avoided.

ÿ Polluting the environment and nature is strictly prohibited. If detected, it is subject to punishment.

These rules were prepared in accordance with Circular 2007/1 of the General Directorate of Nature Conservation and National Parks. Penalties stipulated in Environmental Law No. 2872 apply to those who violate the circular's provisions. If acts prohibited by Forest Law No. 6831 and Fisheries Law No. 1330 are committed against travel agencies and other legal entities in areas where National Parks Law No. 2873 applies, double the penalties are applied. The full implementation of the aforementioned rules is crucial for sustainable hunting and wildlife management, the sustainability, effective management, protection, and transfer of resources in protected areas to future generations, visitor safety, and the monitoring and guidance of visitors to protected areas, as well as the identification
